authorSTREAM

Do more with PowerPoint

You can use authorSTREAM to upload PowerPoint files and...

- Share them with the world**
Discover what slide sharing is all about and share your PowerPoint presentations on the Web as a unique link (URL) to send via e-mail, or embed them in your blogs or websites.
- Download as Video**
You can download your presentations as video, and share them on YouTube or via iPods, or watch them on your DVD player.
- Present and Discuss Live**
Present your slides live over the Internet without any hassle of software downloads.
- Create your Channel to showcase your work**
Add videos in PowerPoint slides as a file or insert YouTube videos to create compelling multimedia presentations that the world will love, and showcase your work in your own personalized presentation channels.
